

MGPEC
Roadway Rehabilitation Techniques and Treatments Task Force
Meeting Minutes

February 15, 2011 1:00 pm to 3:00 pm
CDOT North Holly Facility, 4670 Holly Street, Denver, CO 80216
Turnpike conference room

- 1) Introductions:**
- 2) Contact List Attached:**
- 3) Previous Meeting Minutes:**

January meeting minutes were considered final.

4) Asphalt Crack Seal/Fill specifications.

One comment was received from the steering committee. It was a copy of CDOT research project 2009-9.

An advisory note will be added to the crack seal specification concerning the information contained in this report.

Specification will also be revised to include a recommendation that when pulled bond should be stronger than crack seal or asphalt.

Several minor changes to the text and spelling are to be made.

5) Concrete Crack Seal / Reseal specification.

Not ready for review at this time.

6) Pavement Stabilization/Jacking specification

Richard submitted some modifications to the grout lifting specification that he submitted previously.

After a lengthy discussion it was decided that Richard will contact Aurora and see what we can use from their experience.

7) Slurry Seal specification

Scott Wenger sent an electronic copy of the slurry seal specification. A hard copy was distributed for review during the meeting.

This will be discussed at a later date after everyone has a chance to read it. There were two comments.

Materials:

- SS-1h is anionic and aggregates along the Front Range area usually require cationic emulsions.
- The spec mentions but does not require polymer or latex polymer in the emulsion. Polymer modified emulsions always end with “p”.

Meeting Minutes

8) Chip Seal specification

Not discussed. John Cheever and Dan Stephens are heading up this effort and neither was present.

9) General Discussion

Stephen Henry was informed of and invited to the MGPEC annual meeting.

Stephen Henry stated that further involvement by Steve Olson with this task force is becoming less likely.

Joe LaHeist is going to contact Dan Stephens about Crack Fillers and if there are differences other than color between those used on concrete and asphalt.

10) Next Meetings:

March 8, 2011

1:00 to 3:00 Turnpike conference room
